...summer schools in Serbia

If you want to visit Serbia during summer months (June – September), you can apply for one of many summer schools organized by universities and faculties. Participation in a summer school is a great opportunity to learn and earn some ECTS credits, have a good time in Serbia, experience the country and its culture and make new friends from Serbia and from all over the world.

Summer schools gather students from Serbia and abroad to learn and share experiences together in a multicultural environment and each participant gets ECTS credits which can be accepted by your home university. They are organized throughout Serbia, not only in university centers, but also in other cities, as well as in smaller towns and less urban locations such as villages or nature parks, thus giving you the opportunity to discover parts of the country you probably wouldn't otherwise.

Summer schools can cover topics from different areas of study – from ethnomusicology and folk culture to economics and statistics – but apart from dealing with a certain topic, many include extracurricular activities such as excursions, picnics or other group events.

Apart from the summer schools presented on the left, there are many more organized throughout the year.

Furthermore, there are language courses, short cycle programmes as well as a large number of academic and professional conferences and events organized by higher education institutions.

For more information about a specific summer school, please contact the institution providing it. Contact details are available on the list.
